

The successful business man is the one who gains the confidence of the public by square dealing.—El Mundo.

LOWER RATES THE SENATE TARIFF BILL

Claim Made by Aldrich—Chairman Payne Doesn't See It in That Light.

TINKERS STAND UP FOR THEIR OWN HANDIWORK

MEMBERS OF BOTH HOUSES ARE HOPEFUL OF CLOSING SPECIAL SESSION BY END OF MONTH.

Washington, July 11.—Senator Aldrich reiterates his statement that the senate tariff bill does not impose additional burdens upon the consumer.

"Isolated cases of increases of rates are taken and the entire bill condemned because of these," said Mr. Aldrich. "It is usually the case that if the section of the country which has been found with one schedule would consider the transfers of articles to the free list, and compare the increases with reduction that have been made, that section would see that it had been made a beneficiary by the general revision."

Assistance of "Expert."

General T. S. Sharratts, the veteran tariff expert, who has been a member of the board of general appraisers in New York for many years, declares the senate bill will show a 2 per cent reduction from the Dingley law, and a material reduction from the house rates.

General Sharratts, who is a Democrat, is assisting the conference committee, which is performing the same office for the Democrats when the Wilson bill was in conference.

Views of Mr. Payne.

Representative Payne said tonight the rates of the house bill, judged from the standpoint of the general public, are materially lower than those of the senate bill. Mr. Payne pointed out the hides, tallow, iron, or, ilorice extracts and other articles of great importance to the consuming public were transferred to the dutiable list by the senate bill, while alligator skins, radium, certain spices, cocoa, oleo, stearin and miners' safety appliances were the most important articles placed on the free list by the senate bill.

"It is unfair to compare the two bills by figuring an valorem rates on each," said Mr. Payne.

Some Examples.

Members of the house tonight pointed out that coal, wire nails, scrap iron, shoes and leather, cotton and wool manufactures, petroleum, potatoes, rough lumber, head paints, structural iron, cutlery, zinc bullion, pig lead and other articles of general consumption were increased over the house rates, while dressings, gloves, hosiery and certain iron and steel products were the principal senate reductions of interest to the public. The conferees hope to conclude their work by the end of next week. In the meantime, both houses will hold sessions every three days. The house will meet on Monday and the senate on Tuesday, but, having no business to transact, will immediately adjourn.

Leaders in both houses are hopeful of finally disposing of the tariff before the end of the present month.

TARIFF COMMISSION FINDS SUPPORTERS

New York, July 11.—Delegates of a number of New York business associations met in Washington early this week to urge that a tariff commission be incorporated as a part of the tariff bill. The commission would be composed of representatives of the country will meet the delegates. A statement issued said: "The commission is organized among 100 commercial bodies from all over the country that fully 90 per cent favor the creation of a tariff board. The commission is a total membership of 1,000 commercial associations, including half a million corporations, firms and individuals. The approximate total capitalization exceeds \$1,000,000,000."

RETIRE THIS WEEK.

Chancellor Von Buelow Allowed to Name His Successor.

Berlin, July 11.—The emperor has asked Prince von Buelow whom he would suggest as his successor in the office of chancellor. The prince has recommended the von Bethmann-Hollweg, minister of the interior and vice-chancellor. The opinion of the government appears to be in favor of the prince's suggestion, especially as the widening circle of influence of Chancellor von Buelow's recommendation.

The emperor is expected to arrive in Berlin on Tuesday for two days, during which time Chancellor von Buelow will retire and his successor will be appointed.

TAFT'S WESTERN AND SOUTHERN TRIP NEXT SEPTEMBER MAY BE EXTENDED

Washington, July 11.—Indications multiply that President Taft's announced itinerary for his western and southern trip this fall may be extended. The president did not include in the tentative list which was published all of the places where he expects to hold a brief stop and reception.

Strong efforts will be made by congressmen and state officials to have the president stop for a few minutes at nearly all the towns of appreciable size through which his train will pass during the daylight hours.

Thus far the president has adhered to the policy of journeying in a single private car attached to regular trains. On his western trip, however, it is likely the president will follow the policy of his predecessors in chartering a special train.

The president expects to be away for two months and will have to carry a large staff of stenographers, clerks and telegraphers in addition to his secretaries. Thus far the presidential party has been limited to the chief executive, Captain William W. Butt, his military aide, Assistant Secretary Mischler, Major Ar-

JOHNSON WILL BEAR GUILTY

Still Declares He Is Not Mad—son and Married Only Two Women.

AN ARTIST AT LOVEMAKING

YOUNG BEAUTY DOCTOR TELLS OF OLD SINNER'S STYLE.

San Jose, Cal., July 11.—Christian C. Johnson, or John Madison, who is said to be married to at least a dozen women and to have courted as many more, is in the county jail here and declares that he will plead to the charge of bigamy when his case is called, probably tomorrow.

Johnson was brought here yesterday from San Francisco that he might be prosecuted in this county, where Mrs. Josephine Amelia Threthway of Stockton, Cal., whom he married two months ago, swore out a complaint against him.

Wanted to Plead Guilty.

In the same court room and before the same justice of the peace by whom he was married to Mrs. Threthway, Johnson was arraigned late yesterday afternoon and held to answer for trial in the superior court. The man of many wives, scattered from New York to the Pacific coast, declared that he wanted to plead guilty to the charge of bigamy, but was told he could not do so until his case is called in the superior court tomorrow.

Johnson vehemently repeated his denial today that he ever was under the act of Madison or that he was married to more than two women—Mrs. Threthway of Stockton and Mrs. Henrietta Leopold of San Francisco. He married the former five days after Mrs. Leopold became his wife.

A Wonderful Lie.

Speaking of Johnson's love making, Miss Minnie Cather, a young beauty doctor, who was instrumental in causing his arrest by the San Francisco police, said: "Young men would succeed wonderfully well in their love affairs if they would adopt his style."

"What was his style or method that attracted women to him?"

"He told such wonderful lies," declared the young woman.

REAR ADMIRAL IN THE NAVY

Professor Simon Newcomb, Who Died Sunday Morning, to Be Buried With Military Honors.

Washington, July 11.—Professor Simon Newcomb, famous astronomer, mathematician and traveler, who died at his home in this city early today at the age of 74 years, will be buried with military honors in Arlington cemetery next Wednesday.

The funeral will be held at 10 o'clock and the honorary pallbearers will include many prominent men. The body will lie in state Monday and Tuesday.

Professor Newcomb is survived by a widow, the daughter of the late Dr. Hassler, surgeon U. S. N., and the daughter of Dr. Antia Newcomb McGee of Washington. Mrs. Francis Wilson of New York and Mrs. Edward Whitney of New York.

Professor Newcomb received many honors. He was a member of the Institute of France, the Royal Astronomical Society of Great Britain and the American Association for the Advancement of Science. His astronomical researches cover more than 300 papers and a long list of books on astronomy, mathematics and political economy. He was the author of a book on the basis of navigation for all vessels.

Professor Newcomb held many important positions, including that of professor of mathematics at Johns Hopkins university. He held the degree of LL. D. from Yale, Harvard and the University of Washington and other universities.

He first entered the United States navy as a professor of mathematics in 1861, after his graduation from the Lawrence scientific school of Harvard. He was retired with the rank of rear admiral in 1897.

ATE POISONED CANDY.

Two Little Children Die in Great Agony at Butte.

Missoula, Mont., July 11.—Pitiable poisoning caused by the eating of tainted candy has resulted in the death of two children in the family of Mrs. Zora Masten of this city within the past three days. On Friday evening, a formula of the 3-year-old daughter, died in agony after a few hours after having eaten some candy which had been purchased while the family was visiting in Hamilton, Beattie, the 1-year-old baby, had also eaten the candy and was taken suddenly ill. This morning the child died. The coroner will make an investigation of the cases.

STRAIN TOO MUCH FOR FLORENCE ROBERTS

San Francisco, July 11.—Miss Florence Roberts, who has been playing leading roles at a local theatre, suffering a serious strain today, and according to her physician, must retire from the stage for some time. Miss Roberts was taken ill last night while appearing in "The Girl of the Year." The previous week she completed a long engagement as leading woman in "The Girl of the Year," and the physical strain in the two emotional roles is said to have proven too much for her.

TAFT'S WESTERN AND SOUTHERN TRIP NEXT SEPTEMBER MAY BE EXTENDED

thurs Brooks and two secret service men, James Sloan, who was with President Roosevelt for seven years, and "Jack" Wheeler, who has accompanied Mr. Taft since his election.

The porter and cook assigned to the president's train have been traveling with presidents for many years. Will S. Anderson, the porter, was promoted to presidential service in 1901 and was with President Roosevelt on all his travels. J. C. Broadus, the chef, the president while en route, began service under President McKinley. The third member of the crew, E. B. Letcher, has also seen service under three presidents.

The railroads, in taking every precaution for the comfort and safe conveyance of the president, have three men always on the engine. Sometimes the third man may be the division superintendent. Always there is a representative of the traffic department on board with authority to take control in an emergency. The railroads much prefer to carry the president by special train and often do so nowadays in preference to hauling his car at the end of a regular train.

OUTLAWS KILL HORSE BUYERS

Only One Out of a Party of Ten Escaped—Tragedy in New Mexico.

El Paso, Tex., July 11.—A special from Afton, N. M., thirty-five miles west of here, received at 10:30, says: "Outlaws attacked ten Texas horse buyers in their camp, one and a half miles west of here an hour ago. The horse buyers were driving 300 head of horses to Texas and had camped for the night. One man, wounded and in his stocking feet, reached the railroad station here. He said his nine companions had been killed. Afton is a railroad station on the Southern Pacific and has only a section house and telegraph office. After the first message report was received in El Paso, neither the dispatcher's office nor the Western Union could raise Afton. It is supposed that the operators either fled or that the outlaws attacked the station to prevent news of the killing from being sent out."

The survivor who reached Afton said the outlaws were Indians, but it was thought at Afton that they were Mexicans.

Should the effort to preserve the picture to San Francisco fail, the descendants of the men who built the first transcontinental road will endeavor to procure the picture for themselves. To that end they have begun negotiations with the estate of Mrs. Whitelaw Field, wife of the American-born painter, John H. Field, who painted the picture. The picture is owned by Mrs. Clara Huntington, formerly Miss Clara Huntington, Mrs. Mountaineer Jephson of London, and Mrs. J. Sloat of New York.

Thomas Hill, the artist, was to get \$30,000 for painting the picture, but a misunderstanding arose and the picture was left on his hands. Four hundred people are shown in the picture, seventy of them by name, according to official prominence.

MURDER SUSPECT CAUGHT

George Melville Bradley, Wanted at Portland for Killing Police Officer, Arrested at Idaho Falls.

Idaho Falls, Idaho, July 11.—Saturday forenoon Chief of Police Fisher arrested a suspect corresponding to the description of George Melville Bradley, now wanted for the murder of Patrolman Gittings at Portland in December two years ago. The man readily submitted to arrest and talked jokingly until locked up, when he became angry and said: "By God, you got the right man, and I'm glad I killed him, and if I got out of here I will kill another policeman."

The claimant afterward stated he was drunk when he made the statement, but he was not. The description is perfect, even to the crooked finger of the left hand. A Portland officer is on his way here. The man has had nothing further to say than the above.

UNCLE SAM'S FLEET.

Fifty-four Warships Off the Coast of Old Bay State.

Provincetown, Mass., July 11.—There lies in the harbor of Provincetown and nearby waters tonight the largest and most notable fleet of warships ever assembled for active duty under the Stars and Stripes.

The vessels, including fourteen battleships, torpedo boats, submarines, refrigerators, ships, tenders and supply ships, numbering fifty-four vessels, and representing a value of nearly \$200,000,000, are drawn up in two parallel lines extending around Race Point along the cape to Truro, four miles below, standing at the head of the line being Rear Admiral Schroeder's flagship, the Connecticut. On board the vessels are 15,000 men.

Tomorrow morning early, two divisions of the fleet will go outside for practice and maneuvers, which will be the program throughout the maneuvers.

The big event of the maneuvers is expected to final a grand final review by President Taft and Secretary of the Navy Meyer, which will come near the close of the week.

REWARD FOR LEON LING.

Chinese Six Companies at San Francisco Offer \$500 for Murderer.

San Francisco, July 11.—A reward of \$500 for the capture of Leon Ling, wanted in New York for the murder of Elsie Sigel, has been offered by the Chinese Consolidated Benevolent Association, better known as the Chinese Six companies, the most influential organization among the Chinese in America.

The determination to offer this reward was reached last night at a meeting of the eight presidents of the organization, which now is composed of eight companies or associations, representing the Chinese from as many districts in China. Placecards announcing the reward and calling upon the Chinese to assist in capturing Ling were posted in Chinatown today.

HE ARRIVES.

San Francisco, July 11.—The famous painting, "The Last Spike," which pictures the scene at the driving of the last spike that marked the completion of the Central Pacific railroad and its junction with the Union Pacific, is in danger of being lost to San Francisco.

The painting is now in the museum at Golden Gate park, but John Washburn, son-in-law of the late Thomas Hill, the artist, is negotiating for the sale of the picture to an eastern man for \$10,000.

An effort is being made to arouse the people of San Francisco to raise \$10,000 in order to save the painting for this city. This effort has the endorsement, it is said, of the millionaire descendants of the railroad builders whose faces appear on the famous canvas.

EASTERN MEN NEGOTIATING FOR FAMOUS PAINTING, "THE LAST SPIKE."

Should the effort to preserve the picture to San Francisco fail, the descendants of the men who built the first transcontinental road will endeavor to procure the picture for themselves. To that end they have begun negotiations with the estate of Mrs. Whitelaw Field, wife of the American-born painter, John H. Field, who painted the picture. The picture is owned by Mrs. Clara Huntington, formerly Miss Clara Huntington, Mrs. Mountaineer Jephson of London, and Mrs. J. Sloat of New York.

Thomas Hill, the artist, was to get \$30,000 for painting the picture, but a misunderstanding arose and the picture was left on his hands. Four hundred people are shown in the picture, seventy of them by name, according to official prominence.

PRIVATE PARTIES NEGOTIATING.

Should the effort to preserve the picture to San Francisco fail, the descendants of the men who built the first transcontinental road will endeavor to procure the picture for themselves. To that end they have begun negotiations with the estate of Mrs. Whitelaw Field, wife of the American-born painter, John H. Field, who painted the picture. Thomas Hill, the artist, was to get \$30,000 for painting the picture, but a misunderstanding arose and the picture was left on his hands. Four hundred people are shown in the picture, seventy of them by name, according to official prominence.

MORE RIOTING AT LA PAZ, BOLIVIA

La Paz, Bolivia, July 11.—La Paz is given over tonight to riot. The people swarmed into the streets and did much damage. The electric light wires were cut and pillaging was begun on all sides. Shots were heard in every direction. The situation for foreigners, especially Peruvian and Argentine residents, is extremely serious.

The guards protecting the Peruvian and Argentine legations were suddenly withdrawn last evening, for some unknown reason. When this became known, street mobs renewed their attacks.

The Argentine minister, Senor Fonseca, and his wife, had a narrow escape from injury. They made their way out of the legation and ran a distance of eight blocks, finally seeking protection in the home of the president of Bolivia.

It is reported here that considerable excitement prevails at Lima and Buenos Ayres, and the Argentine government's silence in the face of Bolivian protests is regarded as ominous.

SITUATION CRITICAL FOR FOREIGNERS, ESPECIALLY CITIZENS OF PERU AND ARGENTINA.

It is reported here that considerable excitement prevails at Lima and Buenos Ayres, and the Argentine government's silence in the face of Bolivian protests is regarded as ominous.

IT RAINED FROGS.

Utica, N. Y., July 11.—A message from Gouverneur states that in a heavy wind and rainstorm there were thousands of small frogs fell, covering sidewalks to such an extent that walking was difficult. The rains on a railroad for half a mile were covered and rendered so slippery that the speed of the trains was materially lessened.

POOR EXPLODES

Three Persons Instantly Killed in Celebration at Kansas City.

Kansas City, July 11.—Three people were instantly killed by the explosion of a bomb during a postponed celebration of St. John's day by the parishioners of the Holy Rosary Catholic church here tonight. Two policemen were knocked down and stunned. Another man sitting in a window several hundred feet away was so badly injured that he is not expected to recover. Many others received minor injuries from the flying fragments of the bomb.

The explosion occurred in a vacant lot opposite the church, where the protestant celebration of the day was being held. Hundreds of people were crowded in the lot. The dead are: Antonio Grass, who was in charge of the touching off of fireworks, and a negro and a negro, who were bystanders.

The explosion followed a day of festivity. The fireworks in the early part of the program had been displayed without mishap, and almost every Italian in the city was congregated in and about the lot. Grass had constructed a bomb by filling a section of gas pipe with powder and attaching a fuse to it. He had been warned to place it on the ground before firing it, but neglected to do so. The crowd surged around him as he knelt to light the fuse, and before he could regain his feet the explosion occurred.

Pieces of pipe flew in all directions. A panic followed as the crowd strove to get away. The policemen who were stunned and knocked down had been detained by the crowd. The explosion blew out windows in the church and in nearby houses.

JEROME OUT OF THE CASE

Question of the Present Sanity of Harry Thaw Will Not Be Settled in New York County.

White Plains, N. Y., July 11.—Harry K. Thaw, the slayer of Stanford White, will appear before Justice Mills tomorrow in supreme court at the continuation of the inquiry into his present mental state. The decision of Justice Gaylor last week, denying the application for a change of venue to New York county, removes from the case District Attorney Jerome of New York.

The case is now entirely in the hands of the state attorney general.

It is said the state will call a number of witnesses, including physicians and attendants at Matteawan, who will testify in their opinion he is still insane. The plaintiff will endeavor to refute this testimony with that of a number of lay witnesses who have associated with the prisoner since his confinement, and several persons who are said to have examined him. It seems likely that both sides will call two or three alienists to give expert testimony, although Justice Gaylor, in his decision, suggested that the testimony of the experts appeared to be unnecessary, and declared that the testimony of witnesses who had had the prisoner in their care, and others who had observed him during the past eighteen months, should be sufficient to determine the issue.

HURRICANE ON THE ISTHMUS OF PANAMA

Panama, July 11.—A hurricane of unusual severity occurred here last night doing much damage. The electric plant was disabled and the city was left in darkness. There was great crowd at the National theatre. The performance came to an end, but the audience remained quiet.

Telegraphic communication has been interrupted, and advices are meager. It is feared that interior and coast towns suffered considerably. The government has dispatched two steamers to make an inspection of the coast.

DEADLY TORNADO.

Ortonville, Minn., July 11.—A tornado here today demolished two houses, killing Philip De Grifff. The storm struck the Milwaukee depot, destroying the round house, coal sheds and five boarding cars filled with Italian laborers, killing five of them and severely injuring fifteen others.

CITY HAS TAKEN OF PEOPLE RUE

Los Angeles Crowded With Elks Attending the Annual Convention.

SIGHTSEEING ON SUNDAY

FIRST MEETING WILL TAKE PLACE THIS EVENING.

Los Angeles, Cal., July 11.—The all-absorbing topic at the Elks' convention is the campaign of the candidates for grand exalted ruler. Presiding officers of the convention are a landslide for Herrmann, despite the stubborn fight by Sammis and his followers. Four hundred Iowans arrived on two special trains this evening. The Iowa society had accompanied them. They serenaded Sammis at his headquarters to night, and he addressed them, bidding them keep up the fight. Later the band serenaded the Salt Lake delegation at the Angus hotel.

Grand lodge members from Utah are fairly evenly divided between Sammis and Herrmann. A. J. Davis is directing the Salt Lake campaign among the local delegates, and Colonel C. L. Applegate that of Herrmann.

During the day the Elks from Salt Lake City were given an automobile ride about the city. Today they will go to Pasadena for a big barbecue and chariot races.

During the afternoon there will be an athletic carnival at Ascot park. In the evening an official reception will be held by the city and state officials at the auditorium.

LOS ANGELES, CAL., JULY 11.—FORTY-FIVE THOUSAND VISITORS ARE NOW IN LOS ANGELES TO ATTEND THE ANNUAL CONVENTION OF THE BENEVOLENT AND PROTECTIVE ORDER OF ELKS, WHICH BEGINS TOMORROW.

The train bringing the Detroit delegation is lost somewhere between Salt Lake City and Los Angeles, no word of it having come since it left Salt Lake City. Efforts to locate the train were made to night without success.

The thousands of delegates now here passed the day in visits to the various beach resorts and in automobile rides over the city and surrounding country. Never was this city so gorgeously arrayed.

Town Dressed Up.

Spanning all of the downtown streets are frequent arches of greenery bearing clusters of colored lights, where at night purple and white glow in a thousand forms, outlining the emblems of the Elks' order—the antlered Elk's head, the clock whose hands point to the hour of 11, the hour of the Elks' toast to his adopted brother and the words "Hello, Bill!"—the Elk greeting when brother meets brother.

In the background are gaily bedecked buildings, many of them so ornately decorated as almost to dazzle the beholder.

Today's Program.

Tomorrow the program of entertainment for the visitors will begin. The celebration will be in Pasadena, where delegates and the Elks will be driven over the city in automobiles, and then to Tournament park to partake of a barbecue. Later there will be field sports and chariot races, an exhibition of wild west riding and a stage hold-up.

The first meeting will take place tomorrow evening, when the visitors will be welcomed by Governor James N. Gillett of California and Mayor George Alexander of Los Angeles.

STRUCK BY FREIGHT TRAIN

Handcar Party Returning From Ball Game in Colorado Meets With Death and Disaster.

Bailey, Colo., July 11.—Nineteen persons riding on a handcar and attached push car collided on a curve in Platte canyon on the Colorado & Southern railroad today, resulting in the death of two persons and eleven seriously hurt. The handcar was traveling down a steep grade at a rate of forty-five miles an hour.

The party was returning from a baseball game at Shawnee, running down grade to Bailey's. There were several women in the party, most of whom were eastern tourists spending the summer at Bailey's.

When the cars struck the engine all the nineteen persons were thrown into the air, most of them striking outside the rails. The freight train was stopped and took the injured and dead back to Bailey's, where a special train was ordered from Denver to take the injured to Denver hospitals. The killed were: John Dougherty, section foreman, and Ray Hosen, an employee at Kiowa Lodge, Bailey's.

William Most, 12 years old, and Frank Nehring, son of a wealthy Colorado ranchman, are not expected to live.

SCORCHING HOT DAY.

+ Pueblo, Colo., July 11.—With two exceptions, this was the hottest day in Pueblo for twenty years, with a thermometer registering 102 degrees at 4:45 this afternoon.

EPWORTH LEAGUE DELEGATES HOLD BIG REVIVAL MEETING IN SEATTLE

Seattle, July 11.—The international convention of the Epworth league of the United States and Canada closed its fourth day with a great revival meeting in the armory tonight. This meeting was preceded by an open air rally in the Market place Sunday, led by Rev. Dr. Charles M. Boswell of Philadelphia, who stood on an oil barrel.

After the street meeting, which was full of fervor and what the leader called "old-time religion," the crowd marched in double file to the armory, singing "When the Roll Is Called." When the marchers arrived there were thousands of people in the armory singing their marching song and "Onward, Christian Soldiers." The paraders, led by a dozen preachers and cornet player, made their way up and down the aisles, rousing the audience to a high pitch of enthusiasm.

Rev. W. M. Wilson of Ada, Okla., was chairman of the meeting and Rev. Dr. J. W. Frizell of Kankakee, Ill., led the devotions.

The principal speakers were Rev. J. Kennedy of Fresno, Cal., Rev. George W. Kory of Calgary, Alberta, and Rev. Dr. Homer C. Stuntz of New York. This was the biggest meeting of the convention.

All of the Methodist churches in the city suspended night services to let their members go to the armory.

The convention will transfer its seat tomorrow to the Alaska-Yukon-Pacific exposition grounds, and will close with an afternoon rally in the natural amphitheater. The day has been set apart by the fair management as Epworth League day.

Weather for Monday.
Fair.
The Metals.
Silver, 51 1/2c per ounce.
Copper (cathodes), 17 1/2c per pound.
